The colored man, Charles Crump, who raised a row in "Rotton Row" on Pierce street twice Sunday, and who was ar-rested both times, on yesterday morning, when brought before Judge Aylesworth, was let go without bail and the cases continued. Soon after being let out of fail he was rearrested on an information filed in Justice Fraincy's court growing

out of the same disturbance. In the Carroll county district court much interest has been manifest in the case of a farmer named Kennedy, charged with forgery. He had a hog killed by a neighbor, and in settlement the slayer of the porcine gave Kennedy a note for \$5. This was altered to \$500 and put into the bank. The case has been sharply fought, but the jury has found Kennedy guilty. He is a prosperous farmer, who has heretofore borne a good

Lund & Daviz, at whose stable he had hired a horse and buggy, threatened to prosecute him for cruelty to animals, the orse having been recklessly driven, they claiming damages also for \$20. The police took han in charge, but finally released him on his putting up enough to cover a fine. Then he patched up a settlement for the rig and departed.

Yesterday several new attachments were made on the stock of Kirkland's jewelry store. Funeral of Mrs. Burns.

The family has resided here for sixteen years, her husband being a well known engineer on the Rock Island road. Their son, who is now in the employ of the Pullman company in the Chicago yards, arrived here in time to be present at the last, and will remain here for a few days. There are also two daughters at home. Much kindly sympathy has been shown by the railway employes, and the pall bearers were all railway men, they being E. R. ACCIDENT IN CHURCH BUILDING.

Manufacturing to Be Encouraged-Various Items of Interest Picked by the Bee Man Around the Bluffs.

Robbed While Drunk.

Lawrence K. G. Ter Bost, a Hollander, just discharged from the army, was robbed in this city Sunday night of about-\$100. He had served in the regular army turee years, belonging to company B, Ninth infantry, but served as a musician. He was discharged on the 28th of this month at Fort Bridger, Wyoming. He had, when discharged, about \$600, and bought a ticket to Omaha. From there he came to this side of the river, arriving here Sunday morning early. He bought a ticket for Buffalo, N. Y., intending to take the Rock Island train early in the evening. He also purchased a num-ber of articles, filling quite a box, which be intended to take with him. which he intended to take with him. Having completed his preparations, he concluded to while away the afternoon over a beer table. In order to have companionship, he generously treated all who came into the saioon into which he wandered, on lower Main street, and treated himself so generously that he became boozy. He then went over to the depot and there fell askep waiting for the train. On awakening he found that his pocketbook was gone with all its conpockethook was gone with all its con-tents. He reported to police headquar ters and the officers have been on the hunt since.

Yesterday afternoon they had followed Yesterday afternoon they had followed up traces which they deemed to warrant them in making some arrests. Two men, Mike Fox and James Collins, were brought in. One had nothing, the other about \$7. They will be held for further proof, there being doubts about their identification. They are working men, and have lately been in the employ of the gas company. It is thought there were three concerned in the robbery and that the man was relieved of his money while asleep. It has been learned that someone brought to him at the depot a bottle of whisky from which he took a drink, but whether this was doped with something is not known. The man him-self could give little information which could help the officers much in their search for the fellows who went through

A New Church Damaged. Quite a serious mishap occurred to the new Episcopal church yesterday morning. A large truss for the roof was being raised into position, when a guy rope gave way. The truss fell with a crash. It weighs about 8,000 pounds, and in its fall it not only smashed some of the timbers but did some damage to the stone work. The damage will probably reach \$500. There were eight men at work at the time, several of whom had the most narrow of escapes from being badly injured or killed. As it was they got out with hardly a scratch. The accident will delay the work probably a week.

Encouraging Manufacturing. The move for forming an organization for the encouragement of manufacturing here is still being talked about and worked over. It is thought that the plan may result in some practical help to the city in this line. The plan as talked is for an organization having one hundred shares of \$1,000 each. This organization, with a capital of \$100,000, will then be in shape to talk business to any firm proposing to locate here. If, for instance, manufacturer with \$15,000 wanted to locate here, this association could investigate, and if it seemed a good enterprise could take \$10,000 stock in it, thus giving the enterprise a working capital of \$25,000. Thus it could distribute its capital as seemed most advisable, in small amounts or large. Another feature s that this organization would have a good credit, which it could use when necessary to help out any of the manufacturing enterprises in which it was in-terested. With almost every manufacganization would be protected bette

turing enterprise, there is need of increased capital at certain seasons of the year. At such times such an organiza-tion could secure the needed increass. The individuals investing in such an orthan in almost any other kind of busi-ness investment. Each shareholder would have the benefit of having his money divided among different enter-prises, all of which could not be failures. He would have the benefit of having his money invested in accordance with the best judgment of the best business men of the city. While each one would have a voice, the association could be so organized that its officers could keep a close watch on the various enterprises in which the money of the association was invested. the private investor, whether his share be little or great, would have a double guarantee that his money would be safely invested and carefully looked after. Further than this, the amount of man-ufacturing which could be secured by such an organization would give a growth and prosperity to the city, increasing other business and value of property. There are many interested in business here, or owning property, who could afford to give \$1,000 outright for such a purpose. They would soon get it ack in increased business and values By this plan, however, there is no dona-tion asked. The money thus invested could hardly fail to be kept intact, while the chances are that being thus divided it would return a handsome dividend.

The more the plan is being talked up, the better it seems to please. The out-look is very favorable for the organization to be formed. For the best and cheapest oysters call at Chicago Lunch Counter, 503 Broadway. Oyster soup all day, only 10 cents.

CARROLL lows, Nov. 20.-Judge Louf-

Two cases that have come up before this term have attracted some attention, the first being the State vs. Steven A. Kennedy, Kennedy having, he claims, had a hog killed by Frank Irimeyer, a neighbor. He went to Irlmeyer and succeeded in getting a note for \$5 as canages for the hog. After Kennedy gotthe note in his possession, it is claimed, he raised it to \$500 by adding two ciphers to the figure "5" and and putting "hundred" in the body of the note after the word

This happened over a year ago, but Kennedy was just indicted by the grand jury recently.

The other case is the State vs. Dancan Barr for running a house of prestitution, gambling and selling liquor, besides having a very disorderly place in general Barr didn't disprove any of the charges but the jury did not think it a very clear case against him, although man, oth rs did. The jury were out from Wedn-sday afternoon at 4 o'clock until Thursday evening, and then could not agree. They were discharged by the judge, and the case will come up again next term. The jury stood 10 to 2 for conviction. Judge Loutbourow opens court at Jefferson Monday.

Your correspondent learns that there has been, in plain terms, a big steal both in the building of the present court house and a school house. The court house was built about 1870, at a cost of \$10,000. and is a frame structure, while the school house, also a frame building, was built about the same time for \$33,000, and security sold for about \$700. The school iouse is now used as a skating rink. Gov. Manning made all his wealth here.

Fred Gerstenberg, who is now a resident of Council Bluffs, along with his wife, has been a near neighbor to Carroll he having live I at Manalag, where he left for his present location. He, while here, figured as extensively in the courts as he does in the Bluffs, and his wife was mixed up, one way or another, in many of these cas s. Carroll county has paid out many a dollar on his account, and the citizens are well satis-fied that he shall remain in the Bluis.
